

music stations

Our outdoor **music stations** were created for the international market. Their rugged, flexible design is suitable for diverse climates and terrains - even the legendary English summer!

The BSEN1176 compliant instruments are accessible and ergonomic. They are compatibly tuned and produce a bright, responsive sound that will appeal to all ages and abilities.

The steel frames are supplied with extended legs for concreting into the ground or with bolt-down plates. The plates can be bolted to any hard surface or to a freestanding timber base.

xylophone

This xylophone is made from durable FSC hardwood keys fitted to stainless steel cables. It's warm, marimba-like tones are ideal for chords and melodies. Includes 6 loose beaters.

Tuning: CDEFGABC

Size: approx. W1m x H1m

Price: **£1150 + VAT**

metallophone

This instrument features tuned aluminium tubular bells with an extended 10 note range. The bells respond to the lightest touch and produce sustained, ringing tones. Includes 6 loose beaters.

Tuning: CDEFGABCDE

Size: approx. W1.2m x H1m
